**Subject:** Microsoft Settlement

Dear Sir,

I find it unacceptable that the Dept. of Justice has been bullied and politicised into this mediocre settlement. Therefore I wish to add my name to any list/petition that reaffirms the original requirement that Microsoft should be split. Jackson was right, though his conduct was questionable. Without a major change to restrict Microsoft's leverage on the computer industry, the entire world will suffer poor quality, unchallenged products sold by a monopoly that simply doesn't care about anything other than profit.

Regards  
Michael Henry
